

Life Unfettered: Manifesting: From the perspective of a Master Druid

Life. What an amazing, ever expanding, forest of exploration and adventure. Paths cross, sometimes merging, and then splitting to go separate ways. It is quite a magical forest as it opens up in front of us while it dissolves behind us. A magic so powerful that we all see something different, even if we are looking at the same thing. Through out his Life, Shaynin Brodie has taken many paths which led him on many adventures. He has witnessed many magical miracles on these journeys. He has seen life from One perspective but has noticed many more. Through this he has learned that none of this will help anyone but himself. Here, Shaynin attempts to challenge himself and his spiritual perspective of Life while attempting to create a guide for others so that they may join in the same challenge. His intent is open up what is, what always will be, beyond the labels that are attached to it. To do this, we must always remain vigilant in the student/teacher paradigm and we must take responsibility for ourselves and allow others to do the same.

For Shaynin, this meant he would try to follow what at first appeared to be another of the opposite direction. Through this he began to understand that no matter what label we tend to place on ourselves, ultimately we are all the same thing yet we are doing these same things differently, according to a different perspective. Through this perspective is how we grow, if we allow it.
