People talk to each other verbally and nonverbally. Verbal communication is easy to understand because you get them as it is. However, nonverbal communication poses a huge challenge and this book will try to dig deep into the secrets of nonverbal communication and eventually decode the most common ones that prove to be essential in your dealings with people. Body Language Nonverbal communication involves body language. Signals make up a huge chunk of your daily communication. Your facial expressions can say a lot even without you opening your mouth. The things you dont say speak volumes. Experts say that body

language make up about 50% to 70% of all your communication. Decoding a person's body language is essential, but you also have to be on the lookout for other clues like the context of what the other is saying.

In a group, conversations are even more complicated because their hand gestures and other signals are harder to decipher. Ever been in a group where two or three individuals seem to be talking nonverbally? Have you ever had the feeling that somebody is lying to you? Or was there ever a time when you couldn't believe what the other person was saying? By learning to decipher body language and being aware of what others are not saying, you will have a clearer understanding of other people. It also helps you communicate more effectively.

Subtle and Non-Subtle Movements Often times, there are subtle and non-subtle movements, from gestures to facial expressions, to how every part of the body moves, that give clues to what somebody is feeling or thinking even before you ask them or they say anything. Miscommunication often happens because people overlook what the body movements of other people are saying. The succeeding chapters will teach you how to read what other people are saying to you.
