DO NOT BUY THIS BOOK FOR CASUAL READING..THIS IS FOR MS SUFFERERS , THEIR FRIENDS, OR FAMILY ONLY.! This IS the better mousetrap! Most MDs get just a basic 4 years in Med School, then work to earn not learn. Ive researched diseases and aging for 20+ years, with a 10 year stint where I spent 12 hrs/day everyday in the Northwestern Med Schools library just reviewing clinical and scientific studies! Ive had 3 major theory papers published; the publishing journal has 5 Nobel Prizes between the editors. And described my papers as extremely exciting and of major importance! During my research into the amazing results of taking high doses of the bone and joint remodeling hormone (also known as Vitamin D3) I have run across an amazing account of a doctor in Brazil who has recently been treating his MS patients with high doses of Vitamin D3- and it not only helps them it seems to be curing them. In interviews his patients now refer to the time when they had MS in the past -as they are in fact cured.They loved switching from interferon injections to high dose D3

as D3 was much more effective and had no side effects! It seems the bone and joint remodeling hormone is also the nerve sheath remodeling hormone. This book also takes you step by step how to institute your own high dose D3 therapy, what to expect, dangers to avoid, and how to mitigate any chance of Vit D toxicity.
